# Objectives and Functional Requirements

This business was founded in 2012. In their store located in Colombo, they sell women's apparel. "GLAMOROUS" is the company name. They began their firm using imported products from the United States and France.

The primary goal of the store is to reach maximum customers at the right time to increase sales and profitability of the business.

The store uses offline promotional items like posters, banners, and leaflets. But in order to gain more customers offline promotion and as well as online promotion must be very well handled.

With a pandemic condition, store earnings are rapidly declining, and clients are unable to visit their Colombo 07 branch.

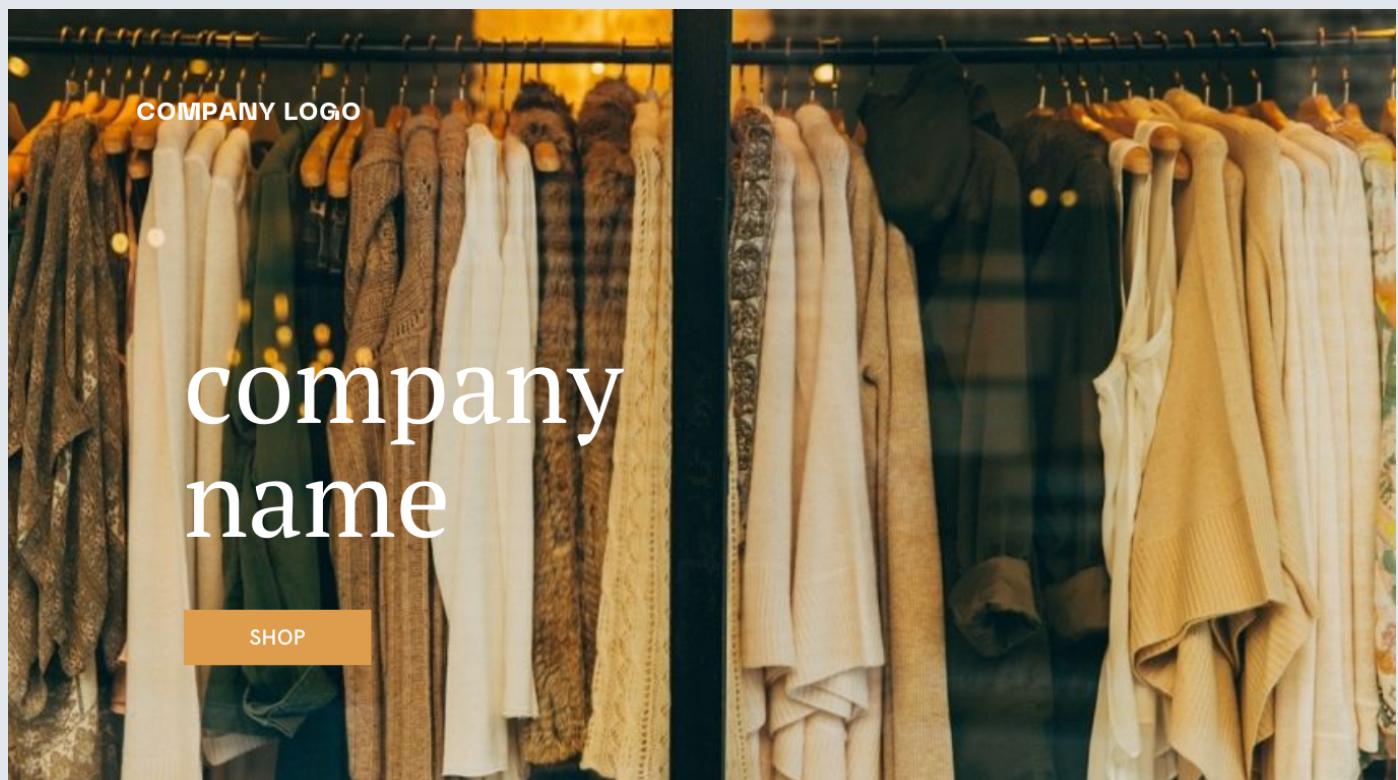

Because of this issue, the company requires an upgrade. After deliberating on the answer, they decide that starting an online store is the best option for the organization. They must also advertise their company's product. Because individuals in the present world live with internet technology and do not enjoy walking through stores to shop, they require an online shopping platform.
